Observations, Corrective Actions, and Correction Date:

CURRENT FEES: \$229

Complaint re-inspection for open health code violations at property including garbage accumulation and uncontainerized garbage.

During my previous inspection I spoke with Rome Salvador and explained the open health code violations. He stated he never received my notices and that he would remove the items from the driveway and dispose of unwanted items. I sent all previous notice of violations via certified mail and it was received by Lita Salvador. All observations were made from the public sidewalk.

Upon inspection, the following conditions were observed:

1. There are still several full garbage bags between the garage and the resident's vehicle.
2. There is still a computer tower next to the car in the driveway.
3. Owner was not present during inspection. Notice of Visit left on front door.
4. Motor oil is being stored in the driveway.
5. There is overgrown vegetation in the front yard.

*Re-inspection fee of \$ 229 will be charged on the 2nd re-inspection and on subsequent re-inspections until violations are corrected. Failure to cooperate with a re-inspection, or to pay authorized re-inspection fees pursuant to SFHC Art. 11, Sec. 609.1, will result in a finding that the violations are not abated.

**Up to \$1000 fine per day may be charged after Director's Hearing if violations are not corrected, per SFHC Art. 11, Sec 600.
